

EnCO Training Modules

Overall Goal

To educate, inspire and equip energy professionals worldwide to provide behaviour change services to enable organisations to become an **Energy Conscious Organisation (EnCO)**.

This will integrate the people/behaviour aspects into technical and other energy measures to significantly increase energy savings along with reduced carbon emissions and costs.

Benefits

- Equips delegates in basics of people aspects of energy management
- Provides insights into importance of behaviour change opportunities in organisations to significantly reduce energy consumption
- Introduces the EnCO process and tools to accelerate change in organisations
- Delegates become Registered EnCO Consultants recognised by ESTA and the Energy Institute
- Attracts 10 hours CPD

Who is the EnCO Training for?

Energy Managers/Engineers, Environmental Managers/Practitioners, Energy Consultants, M&E Specialists, Estates Managers and Energy Services and Technology Providers. Anyone interested in effecting behaviour change in organisations to save energy.

- Public Sector: Local Authorities, Central Government, NHS, Higher Education, MoD
- Private Sector: Manufacturing, Commerce, Retail, Telecoms

www.mulhollandenergy.co.uk

Both Jes and John are experienced energy consultants with extensive experience in practical behaviour change projects in industry, commerce and the public sector in the UK and internationally.

EnCO Training Module Concept

The training is delivered online in bite-sized pieces. Before each module you will receive materials to read which will prepare you for the next module. There will be an element of interaction verbally and via chat box. If you attend all four modules and pass a short exam after Module 4 you will become a **Registered EnCO Consultant**, recognised by ESTA and the Energy Institute.

If you are unable to attend all four modules you will be able to catch up on the ones missed at the next repeat series of modules. Once all four are attended and the exam is passed you become a **Registered EnCO Consultant** which is the first stage in becoming an **Approved EnCO Practitioner**.

EnCO Approval Process

There is a two stage process to become an Approved EnCO Practitioner:

Stage 1

- Attend the four EnCO online modules
- Pass an exam
- Become a **Registered EnCO Consultant**

Stage 2

- Deliver the EnCO principles in one organisation
- Write an EnCO Case Study
- Application/Interview
- Become an **Approved EnCO Practitioner**

Continuing Professional Development (CPD)

The EnCO training modules are an approved ESTA course and attract 10 hours of CPD.

Testimonials of Past Delegates

Behaviour change strategies within the workplace can produce some of the best paybacks of any investment in energy reduction. The EnCO course enables delegates to gain the necessary skills to be able to confidently work with clients to deliver these positive changes resulting in both cost and emission savings for their organisation.

Sam Arje
TEAM (Energy Auditing Agency Ltd)

The EnCO course was created and delivered by experts in energy management and their experience and passion for the subject shows throughout each module. This course is full of great advice on how to make people in a business change their relationship with energy.

Steve Pick
British Gas

Particularly relevant to today's needs and professional services and very inclusive.

Charles Dicks
Civic Planning & Design & Carbon Group

If you are passionate about behaviour change then this course gives you all the tools you need to start changing hearts and minds. Brilliant support from Jes and John who are willing to share their vast experience.

Sue Spilsbury
Carbon Decoded

The new EnCO training modules from ESTA are an information-packed set of indispensable knowledge to help unleash the huge potential energy savings from changing the way organisations think and harnessing their employees' help.

Tim Holman
Head of Operations
TEAM (Energy Auditing Agency Ltd)

Systematically ensures energy consciousness becomes everyone's agenda.

David Chadwick
eLansys Ltd

Although the course was remote, it was well structured and enabled interaction between participants. It gave you a clear understanding of how to gather the information needed to analyse an organisation's behavioural approach to energy. After analysing this through a comprehensive but easily understandable matrix, the course then goes on with guidance on how to structure your proposal and implement it. Highly recommended course.

Mike Tomaschivsky
Optima Energy

Next Course Dates

Four 90 minute modules on **21 January, 4 February, 25 February** and **11 March 2021**

Four 90 minute modules on **28 January, 11 February, 5 March** and **19 March 2021**

Four 90 minute modules on **15 April, 29 April, 20 May** and **3 June 2021**

Please check for availability.

Course Numbers

The course is limited to **25 delegates** and places allocated on a first come, first served basis. For each course a maximum of 14 free places are available to ESTA and qualifying Members of the Energy Institute (see below). Of these 14 free places there is a maximum allowance of two delegates per organisation/company.

Cost of attending

ESTA Members – free of charge

Energy Institute RPEC members and MEI Chartered Energy Managers – free of charge

Those who are MEI Chartered Energy Managers but registered elsewhere as ESOS Lead Assessors also qualify for a free place.

All others: £495 + VAT
